|--|---------------|
| <b>4. Printed Name of Responsible Party:</b> | <b>Title:</b> |
| <b>5. Signature of Responsible Party:</b>    | <b>Date:</b>  |

**NOTE:** This form is specifically for modifications to an existing registration. Use this form only if the engine or equipment unit has a current valid registration with the Air Resources Board.

**Modification to an Existing Registration:** *Please provide the following information:*

1. *Company Name* - Legal name on current registration
2. *Registration Number* - This is the unique number assigned to the engine or equipment unit and is listed on the Statewide Registration Program certificate.
3. *Indicate How Registration is to be Modified* - Check the box that best describes the action you wish:

*Change of Ownership* - Check this box if you have purchased an engine or equipment unit with an ARB registration. Attach **Form 1, General Information**, along with **Form 7**. List the general use of the engine or equipment unit. Indicate the "home District," the one air pollution control or air quality management district in which this engine or equipment unit is most commonly operated. This district will be designated as your "home" district in which you will not have to notify. It is not required that a home district be designated. Check the box if your company is a rental business. A *rental business* means a business where the principal use of its engines or equipment units is to temporarily rent or lease for profit, portable engines or equipment units to operators other than the owner(s) of the engine or equipment unit. Indicate if the sticker is intact and on the engine or equipment unit. The fee is \$15 per registered unit for a change of ownership

*Change status from non-operational to operational* - Check this box if you want to change the status of an engine or equipment unit from non-operational to operational. If the engine or equipment unit was originally registered with an initial ARB evaluation, the fee is \$30 per engine or equipment unit and you may operate the equipment after mailing this form to the ARB. If the engine or equipment unit was originally registered without an initial evaluation, the fee is \$60 per engine or equipment unit and you may not operate the equipment until you receive ARB notification.

*Identical Replacement* - Check this box if the existing engine or equipment unit is being replaced by an identical engine or equipment unit. Attach **Form 1, General Information**, along with **Form 7**. Identical means the replacement engine or equipment unit differs only by serial number from the registered engine or equipment unit. Provide the serial number of the new engine or equipment unit. Remove the sticker from the engine or equipment unit and return the sticker with this form. The fee is \$15 per unit and you may operate the equipment after mailing this form to the ARB.

*Equivalent Replacement* - Check this box if the existing engine is being replaced by an equivalent engine. Attach **Form 1, General Information**, along with **Form 7**. An equivalent replacement is treated as a new registration. For each engine or equipment unit to be used as an equivalent replacement, you must complete and attach a copy of the appropriate form listed below:

Form 2 - *Portable Internal Combustion Engine*

Form 3-A - *Portable Sand and Gravel Screening, Rock Crushing, and Pavement Crushing and Recycling*

Form 3-B - *Portable Concrete Batch Plant*

Form 3-C - *Portable Confined Abrasive Blasting*

Form 3-D - *Portable Unconfined Abrasive Blasting*

Form 3-E - *General Application for Portable Equipment Unit*

Remove the sticker from the unit and return the sticker with this form. The fee for an *equivalent replacement* is \$90 per engine or equipment unit.

*Modification to an Engine's or Equipment Unit's Configuration, Emission Control Equipment, or Operating Conditions* - Describe the applicable changes and how the change has affected the configuration and/or the emission control equipment. If necessary, attach appropriate manufacturers specifications or design parameters. The fee is \$15 per engine or equipment unit.

4. *Printed Name of Responsible Party* - Printed or typed name and official title of person signing and dating form.
5. *Signature of Responsible Party with Date* - Signature of responsible member of entity.  
(Application will not be accepted unless signed and dated.)
